Creating since

Profile.

AI filmmaker and video producer from Lahore. I take an idea from the first line of script to the final cut. Storyboard, keyframes, generation, edit, sound, and color. My focus is the hardest part of AI video: keeping a character, a style, and a world consistent from shot to shot. I produce four narrative YouTube channels, one of which grew to 20,000 subscribers, and I create ads and brand content for clients.

Experience.

AI Filmmaker and Video Producer

May 2022 to Present

Independent · YouTube channels and freelance · Lahore

- Produce and grow four narrative YouTube channels end to end: script, AI assets, edit, thumbnails, SEO, and publishing.
- Grew a mystery storytelling channel from zero to 20,000 subscribers.
- Lock characters and style across shots with character sheets, expression sets, lighting tests, and prompt libraries.
- Built a semi-automated pipeline from script to AI visuals, voiceover, grade, and publish.

AI Video and Content Producer

Client · Current

BizFocus AI · AI consultancy and automation for US small businesses

- Create AI video and content that explains and promotes AI and automation services to small business owners.
- Work async with a US based team, from brief to finished, ready to post assets.

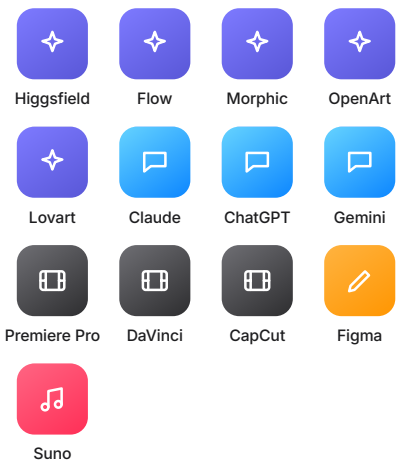

AI Ad and Brand Content Producer

Client · Current

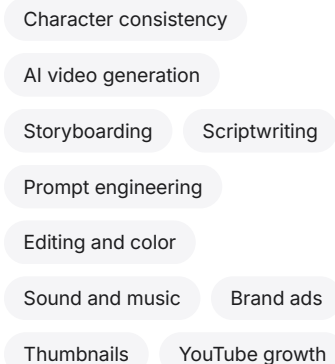

One Regimen · Skincare cream brand

- Produce product and brand video for a skincare cream line, from concept and keyframes to the final ad.
- Keep the product and brand look consistent across every shot and every post.

Toolkit.

Skills.

Channels. Four worlds, four styles.

MYSTERY · DETECTIVE FICTION

Edit, sound, and grade

What I bring.

A director's eye.

Mood, pacing, and framing that make AI footage feel like real cinema.

A consistency system.

Character sheets and locked references that keep every face on model.

A production mindset.

Built for volume, deadlines, and clean handoff to the team.

Certifications.
